

# HEAVY ARCHITECTURAL SIGNAGE

This line of frames is fabricated from a heavy 1/8" thick wall and 1 3/4" or 1 1/4" wide extrusions. They can be used either as a double or single sided frame for counters, desks or walls. All frames are custom fabricated to your specifications. Sharp clean square corners are fabricated from continuous extrusion.

- Frames are available in nine anodized finishes: Polished Rose Gold, Polished Yellow Gold, Polished Silver, Arch Bronze, JRS Bronze, Matte Black, Satin Silver, Satin Rose Gold and Satin Yellow Gold.

- Not available in Powder Coat finishes.
- All frames are available with optional Matte Black metal inside suitable for changeable magnetic signs (up charge applies – see price guide).
- Please specify part number, inside dimension, inside depth, and color.
- Net price is calculated by multiplying the perimeter inch price by the perimeter inches of the frame.

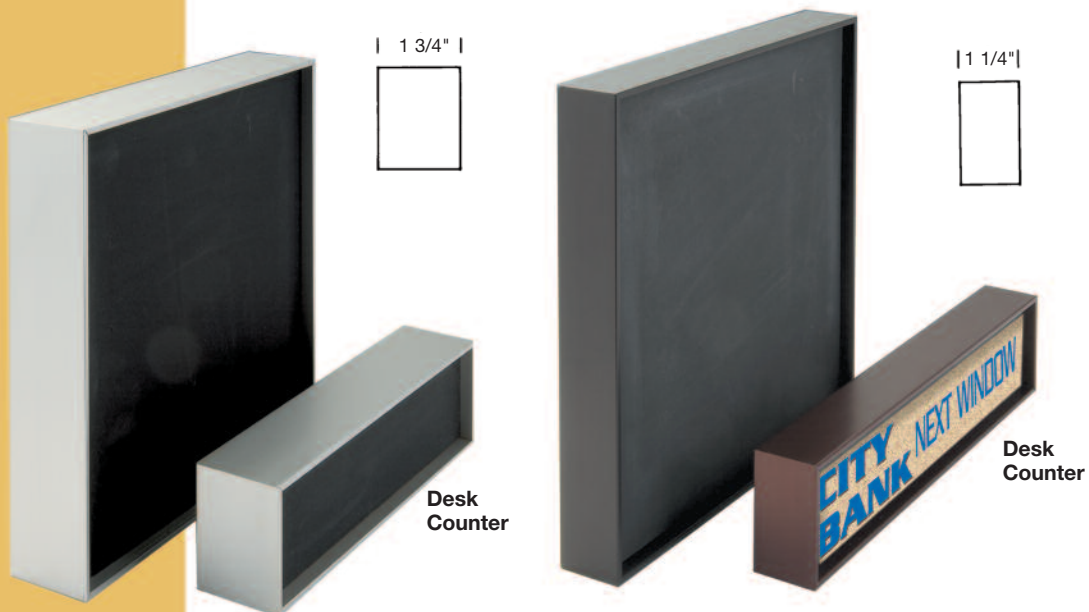

Example: a 932D frame:

$2" \times 8" = 2 + 8 + 2 + 8 = 20$  perimeter inches.

20 perimeter inches x price per inch = Net Price

- Approximate max 70 perimeter inches. Approximate minimum 2".

Part No.	Frame Thickness	Inside Depth
932D Double Sided	1 3/4"	5/16"
932S Single Sided	1 3/4"	5/16"
942D Double Sided	1 1/4"	5/16"
942S Single Sided	1 1/4"	5/16"

Please specify part number, inside dimension, inside depth, and color. All holders and frames can be combined for quantity discounts.

**See price list for current pricing and quantity discounts.**

**All frames ordered by inside dimension.**
